Using the Example Environment with knitr

Yihui Xie

March 13, 2014

1 Introduction

This is a test of the R Example environment.

1.1 Go!

R Example 1.1.

```r
1 + 1
```

```
## [1] 2
```

Look at Example 1.1!

1.2 Ha!

R Example 1.2.

```r
x = rnorm(10)
```

Move on!

R Example 1.3.

```r
sd(x)   # standard deviation
```

```
## [1] 1.064
```

How about 1.2 and 1.3?

If you want to use this R Example environment for all code chunks, make rexample a global chunk option in the setup chunk.
